

MISSION

Renton Technical College engages a diverse student population through educational opportunities for career readiness and advancement, serving the needs of individuals, the community, businesses, and industry.

VISION

Renton Technical College will be a locally, regionally, and nationally recognized leader for improving lives and inspiring lifelong learning.

VALUES

Community • Empowerment
Equity • Integrity • Learning
Respect • Stewardship

GOALS

EQUITY • LEARNING • COMMUNITY • STRENGTH

Guided Pathways advance all four goals outlined in RTC's 2017-22 Strategic Plan and help students succeed at RTC. Pathways aim to increase the number of students who earn associate's degrees, particularly students from traditionally underrepresented groups.

Guided Pathways

1 **MAP PATHWAYS TO STUDENT END GOALS**
Staff and faculty will have input into program design and degree maps. Communication and technology will be key to success.

2 **HELP STUDENTS CHOOSE AND ENTER A PATHWAY**
Advisers will help students find their path. We will streamline our math and English curricula to shorten the paths.

3 **KEEP STUDENTS ON THE PATH**
We will monitor and support students, providing intervention when needed to keep students on the path to completion.

4 **ENSURE THAT STUDENTS ARE LEARNING**
We will monitor learning outcomes and improve faculty and college practices to strengthen teaching.
